PROFESSIONAL SUMMARY

Healthcare compliance and operations leader with 10+ years at a large, Medicaid-funded, regulated care facility. I run compliance, quality, and operations for a 24-person QIDP department and helped lead the facility out of a federal DOJ settlement agreement in 2026. I build the reporting, audit, and corrective-action systems that keep multi-department operations compliant with state and federal standards, and I translate that operational data into decisions leadership can act on. Strong working knowledge of Medicaid program operations, CAPA management, audit readiness, and KPI reporting, with hands-on Excel automation and growing Python and SQL skills.

CORE COMPETENCIES

Compliance & Regulatory: Medicaid Program Operations, Regulatory Compliance, CAPA Management, Audit Readiness, Deficiency Remediation, Immediate Jeopardy Response, Root Cause Analysis, Risk Mitigation, DOJ Settlement Compliance

Quality & Reporting: KPI Development & Tracking, Quality Improvement, Performance Dashboards, Regulatory Reporting, Executive Stakeholder Reporting, Process Standardization, Delegation & Governance Oversight

Operations & Leadership: Multi-Team Program Management, Cross-Functional Leadership, EHR Implementation, Workflow Redesign, Staff Training & Retention, Operational Change Management

Tools & Technical: Advanced Excel (automation, formulas, linked workbooks, data export), Cerner PowerChart / Iris EHR (certified Super User / Master Trainer), Python, SQL, Jupyter, GitHub, Microsoft Office Suite

PROFESSIONAL EXPERIENCE

Director of Compliance & Operations, QIDP Services

(Official title: QIDP IV)

Dec 2019 - Present

Texas Health and Human Services Commission - Austin, TX

- Direct compliance, quality, and operations in a Medicaid-funded facility, overseeing seven specialized direct reports across audits (Compliance Advisory Team), annual plan review (Team Facilitators), and training and development, plus 17 Team Coordinators (QIDP IIIs) who serve as central hubs and team leads for cross-functional & interdisciplinary care teams.
- Helped lead the facility out of a federal Department of Justice settlement agreement (exited 2026), owning compliance for Section F (made up of compliance indicators focused on team coordination & effectiveness) and demonstrating sustained, measurable progress to federal monitors over multiple review cycles.
- Managed Immediate Jeopardy situations under state regulatory oversight, resolving immediate risks within a required 24-hour window and executing corrective action and ongoing monitoring plans to prevent recurrence.
- Built and maintain automated Excel dashboards and KPI reporting across all 17 teams, shifting issue detection from reactive to proactive and contributing to a 43% increase in departmental goals meeting their success measures.
- Chair a cross-functional governance committee spanning 10+ departments (HR, IT, QA, Nursing, Therapies, Billing) to resolve cross-departmental issues, standardize workflows, and reduce risk identification timelines from months to weeks.
- Design and run CAPA reporting and quarterly operational review cycles across 10+ departments, giving executive and state leadership consistent, decision-ready compliance data.
- Redesigned the department review process from monthly data logging to quarterly summary and analysis, improving the depth and usefulness of reporting while reducing administrative burden on staff.

- Led EHR implementation and workflow redesign in Cerner PowerChart / Iris across 10 departments and 140+ staff, achieving 95% training completion in 2 months against a target of 75% in 3 months and migrating 80% of documentation to structured digital workflows.
- Serve as certified EHR Super User and Master Trainer; partnered directly with Cerner technical staff to improve documentation forms and trained staff facility-wide on PowerChart and Iris.
- Implemented the nationally recognized Person-Centered Thinking framework facility-wide, training 400+ staff within one month under an emergency timeline and building continuous training to sustain adoption.
- Rebuilt the department's training program from roughly one month to one week using shadowing, structured audits, and a learn-through-practice model, while cutting recurring Team Coordinator vacancies from 7 to roughly 1 every three months, filled within two weeks.
- Drive 50%+ improvement in KPI accountability by replacing informal check-ins with automated dashboards and structured, data-tied follow-up cycles; raised documentation audit scores from a 30% baseline and lifted monthly progress-note scores from roughly 60% to 80-90%.

Program Compliance Coordinator

Mar 2019 - Dec 2019

Texas Health and Human Services Commission - Austin, TX

- Directed compliance recovery for two facilities at risk of Medicaid funding loss, executing structured remediation that resulted in 100% staff retraining, elimination of repeat deficiencies, and avoidance of escalated regulatory oversight.
- Extracted and analyzed audit and compliance data across multiple sites to identify systemic root causes, producing trend reports and risk summaries that informed executive and legislative decision-making.
- Built Excel CAPA trackers from scratch to monitor corrective action progress and outcomes, replacing inconsistent manual tracking with standardized reporting across sites.
- Produced recurring trend reports and risk summaries for leadership; one set of data-driven recommendations directly contributed to reinstatement of program funding.

Unit Supervisor

Aug 2017 - Mar 2019

Texas Health and Human Services Commission - Austin, TX

- Managed daily operations for a high-volume care unit, overseeing staffing, performance metrics, and workflow execution while running an interdisciplinary team of clinical and non-clinical members.
- Identified a recurring staffing gap through data analysis and partnered with leadership to design a cross-unit coverage model that improved staffing efficiency by 25%.

Team Coordinator (Official title: QIDP III)

Mar 2016 - Aug 2017

Texas Health and Human Services Commission - Austin, TX

- Served as the central coordinating point for an interdisciplinary care team, aligning clinical and direct-care staff around individual service plans and day-to-day execution in a Medicaid-funded regulated setting.
- Maintained documentation and program records to state and federal standards, supporting audit readiness and surfacing compliance gaps to supervisors for correction.
- Coordinated care plan reviews and follow-through across team members, building the hands-on compliance and operations foundation later applied at the supervisory and director levels.

EDUCATION & CERTIFICATIONS

- Postgraduate Certificate, Artificial Intelligence and Deep Learning - University of Texas at Austin | 2025
- Postgraduate Certificate, Data Science and Business Analytics - University of Texas at Austin | 2025
